Dear Marta

Re: Drafting of Will for Ewelina Lejba

I write to thank you personally for the fantastic service you recently supplied when carrying out the drafting of a will for my partner Ewelina.

Having no will in place, Ewelina had no idea what to do or even where to start and having recently purchased a new property she was even more anxious to put one in place.

Ewelina called upon your services to help with this delicate matter and she has whole heartedly expressed that you made the whole process a stress free experience for her.

You were very professional and incredibly easy to deal with, that together with your support, guidance and explanation of how a will works was superb, you made her feel very comfortable and gave her complete confidence and peace of mind. As Ewelina is a Polish lady, being able to communicate with you in her native language made the experience even more comfortable for her.

Ewelina is absolutely delighted with the completed draft of her will and your all-round professional approach adopted throughout.

You are an incredible person and supply an impeccable service to which I have no hesitation whatsoever in recommending you and your services to family, friends, colleagues and clients and all whom may need your services.

Many thanks again

Yours Sincerely

Dave Tilston
